

Croatian Public Health Institute published day before yesterday additional measures aimed at limiting import and distribution of the new Coronavirus SARS CoV-2 in Croatia. The list of additional measures includes categorization of the countries most affected by epidemic of the COVID-19 disease.

According to instructions, Croatian citizens, as well as the drivers entering Croatia from the countries/areas most affected by COVID-19 disease (category 1*) are subjected to the 14-day medical supervision in home isolation. If home isolation is not possible, they are subjected to organized 14-day isolation. Likewise, Croatian citizens and drivers entering Croatia from the wider list of affected countries/areas (category 2**) are subjected to the 14-day medical supervision in home isolation.

For lists of most affected countries/areas 1* and 2**, as well as all other additional measures see: <https://www.hzjz.hr/aktualnosti/dodatne-mjere-za-sprecavanje-unosa-i-sirenja-novog-koronavirusa-u-hrvatsku-9-ozujak-2020/>
