30.07.2024	29.07.2024	<p>29/07/2024</p> <p>Council Regulation (EU) No 267/2012 of 23 March 2012 concerning restrictive measures against Iran and repealing Regulation (EU) No 961/2010</p> <p>The following upgrade of TARIC integration has been done: 12 new measures (measure type 714: import control) for IR have been integrated in TARIC. Two new footnotes MG 829 and CD 937 have been created and associated to the measures. 5 existing measures (measure type 714) have been modified. They have been closed on 29/07/2024 and reopened with the start date 30/07/2024 by adding two newly created footnotes MG 829 and CD 937. The conditions and other TARIC elements have remained the same as before. The measures are related to Annex II.</p> <p>The start date of the measures is 30/7/2024.</p>
15.08.2023	29.07.2024	<p>27/07/2024 17:16</p> <p>Anti-dumping duties (regulation 2024/1267)</p> <p><u>During the registration period (15.08.2023-07.05.2024):</u></p> <p>--- the anti-dumping measures linked to additional code 89AH are linked to 6.8% duty. This corresponds to the residual duty of Regulation (EU) 2021/1483 (anti-dumping duty on stainless steel cold-rolled flat products originating in China and Taiwan). There are no conditions in the measures because the retroactive</p>

presentation of the documents (TARIC document code "D023 Commercial invoice and mill certificate as defined in Regulation (EU) 2024/1267") required to grant the exemption from the extended anti-dumping duty of 19.3% (regulation (EU) 2024/1267) is recognised problematic. In short, the extended duty of 19.3% does not apply.

--- the anti-dumping measures linked to additional code **C030** are still at CN level (ex: 7219 31 00 instead of 7219 31 00 10) and linked to regulation 2021/1483. For the same reasons as above, the extended anti-dumping duty of 19.3% does not apply.

After the registration period (from 08.05.2024)

The document required to be exempted from the extended anti-dumping duties (TARIC document code D023) must be presented. In terms of TARIC data, this means:

--- the anti-dumping measures linked to additional code **89AH** are linked to the following conditions:

A1 - D023 - 6.8% is applied (exemption from the extended duty but still submitted to the initial duty from regulation 2021/1483)

A20 - <document D023 is not presented> - 19.3% is applied (extended anti-dumping duty)

--- measures 552 linked to additional code **C030** are linked to following conditions:

A1 - D023 - 0% is applied (exemption from the extended duty AND from the initial duty)

A20 - < document D023 is not presented > - 19.3% is applied (extended anti-dumping duty)

Countervailing duties (anti-subsidies) (regulation 2024/1268)

During the registration period (15.08.2023-07.05.2024)

		<p>The anti-subsidies measures linked to additional codes C030 and 89AH are linked to 0% duty, as this corresponds to the exemption from the extended countervailing duty. There are no conditions in the measures because the retroactive presentation of the documents required to grant the exemption (TARIC document code "D024 Commercial invoice and mill certificate as defined in Regulation (EU) 2024/1268") is recognised problematic.</p> <p><u>After the registration period (from 08.05.2024)</u></p> <p>The document required to be exempted from the extended anti-subsidies duties (TARIC document code D024) must be presented. In terms of TARIC data, this means:</p> <p>The anti-subsidies measures linked to additional codes C030 and 89AH are linked to the following conditions:</p> <p>A1 - D024 - 0% is applied (exemption from the extended countervailing duty)</p> <p>A20 - < document D024 is <u>not</u> presented > - 20.5% is applied (extended countervailing duty)</p>
23.07.2024	22.07.2024	<p>22/07/2024</p> <p>Further to the publication of COMMISSION IMPLEMENTING REGULATION (EU) 2024/1976 of 19 July 2024 initiating an investigation concerning possible circumvention of the anti-dumping measures imposed by Implementing Regulation (EU) 2021/633 on imports of monosodium glutamate originating in the People’s Republic of China by imports of monosodium glutamate consigned from Malaysia, whether declared as originating in Malaysia or not, and making such imports subject to registration, the TARIC has been updated as follows.</p> <p>TARIC code 2922 42 00 10 has been closed and absorbed by new TARIC codes: 2922 42 00 15/10 2922 42 00 15/80</p>

		<p>2922 42 00 20/80. Measures 552 and 570 have been created on the new codes (2922 42 00 15/80 and 2922 42 00 20/80). Measure 564 measures has been created on the TARIC code 2922 42 00 15. Measure 566 measures has been created on the TARIC code 2922 42 00 20.</p>
01.08.2024	15.07.2024	<p>15/07/2024 13:54</p> <p><u>Official Controls – Veterinary checks</u></p> <p>Implementing Regulation (EU) 2021/632 as regards the lists of products of animal origin, animal by-products and composite products subject to official controls at border control posts – Annex I</p> <p>It has been noted that the animals and animal products having a third country origin and entering in the EU territory from the following dispatch countries:</p> <ul style="list-style-type: none"> • Andorra • Switzerland • Faroe Islands • Greenland • Iceland • Liechtenstein • Norway • San Marino <p>Are exempted from the Official controls because the veterinary checks performed in those countries are recognized by the EU legislation for the concerned products.</p> <p>Hence, new exemption codes have been created in TARIC with the certificates from Y 170 to Y177 : “Goods with third country origin coming from, according to the relevant EU legislation.”.</p> <p>The Measures (excluding EU origin) have been updated with the above-mentioned certificates and with a</p>
